

CAD 050 806 850
Part C 4I-1

14 September 1999

Regional Administrator
U.S. Environmental Protection Agency, Region IX
Pesticides and Toxic Substances Branch (A-4-4)
75 Hawthorne Street
San Francisco, CA 94105

To Whom It May Concern:

It has been brought to the attention of Safety-Kleen (Los Angeles), Inc. that a discrepancy occurred with Safety-Kleen's receipt on 08/03/98 of one drum of PCB-contaminated debris from Lockheed Martin Skunkworks. Specifically, there was greater than a 10% difference between the (estimated) manifested weight of this drum and the actual weight, determined later. Please be advised that this discrepancy resulted from an inaccurate weight estimate, and not from any release of container contents. However, due to the delayed resolution of this matter, this letter is being submitted to U.S. EPA pursuant to 40 CFR 761.210(b).

The drum at issue was originally transported on 07/28/98 using California Manifest #96885410, which estimated the container weight at 136 kilograms. Upon receipt at Safety-Kleen (Los Angeles), Inc. on 08/03/98, a scale determined the actual container weight to be 96 kilograms, but there is no indication that a weight discrepancy was noted or resolved at that time. Recently, however, the weight discrepancy was discovered and resolved verbally with the generator by concluding that 136 kilograms was a high weight estimate.

From the time of its original transport from the generator's site, the drum was managed without incident, and was remanifested for disposal in Grassy Mountain, Utah using California Manifest #96644287. The container was transported from Safety-Kleen (Los Angeles), Inc. on 08/22/98, arrived in Grassy Mountain without incident on 08/25/98, and was disposed on 08/28/98.

With this letter, please find copies attached of both manifests, as well as the Certificate of Disposal for this container. If there are questions regarding this submittal, please feel free to contact me at (323) 277-2528.

Sincerely,

John Gilkay
Environmental Compliance Manager
